So I found this test: Prove that  $\int_0^1 p(x) dx = 1 - F(0)$  I assume that the test  $\chi^2$  is chi squared with a = 4 degrees of freedom. And the decision rule for the test is to reject  $H_0$  if  $\int_0^1 p(x) dx > 0.55$  and keep  $H_0$  if  $\int_0^1 p(x) dx \leq 0.55$

### What's New in the AutoCAD?

Import into a new model: With AutoCAD 2017, importing into a new model was a major pain in the neck. AutoCAD 2023 makes it easy to open an existing drawing and immediately import your paper, PDF, or other design data into the new drawing. (video: 1:23 min.) Markup Assist: With AutoCAD 2017, the idea of "marking up" your designs was a laborious process. Using AutoCAD 2023's Markup Assist feature, you can easily create lines, circles, rectangles, and other annotate your designs, without needing to create additional lines or annotations in the drawing. (video: 1:47 min.) Intelligent Scaling: AutoCAD 2023 automatically adjusts dimensions for more accurate drawing results. For example, a dimension will adjust for different paper sizes when importing a PDF. Design-time Calculation: Calculate as you draw by drawing a line in AutoCAD. Design-time calculation in AutoCAD 2023 can be used with direct dimensions, alignments, polarities, and other dimensions. (video: 1:05 min.) Adobe PDF Viewer: Open and save PDFs directly into AutoCAD drawings. PDFs with embedded text and other drawing information are displayed in the drawing window, not as separate PDF files. Quick links: New Quick Links feature makes it easy to instantly open related files. Simply click the file name and AutoCAD opens that file and opens the file's parent folder. Update of the 2D Vector design tools: Smooth Draw and Smooth Move: The ability to draw with smooth lines has been improved. Smooth Draw and Smooth Move make it easy to create objects and design from a free-hand sketch with ease. Draw Freehand: Added Freehand feature to the Create Freehand tool. You can now create irregular, free-hand drawings and easily add them to the drawing. Duplicate: Duplicate feature added to the Create Line, Create Circle, Create Rectangle, Create Group, and Line and Circle tool. Clone: New Cloning feature added to the Create Line, Create Circle, Create Rectangle, and Create Group tools.
